Call you to

Defend Human Rights on the French-UK Borders

Our French partners are calling for support in seeking the rights of asylum seekers and migrants on their borders. For years aid and rights workers in places like Calais and Ventimiglia have tried to ensure that those seeking asylum are treated with respect and decency as they seek a new future. But abuses are getting worse.

**Support our vigil at the French Embassy, 58
Knightsbridge**

Wednesday 4th December 2019 12.00

On this day, French people will be carrying out similar actions all over France
and on both sides of their border regions.

Join in our call for rights for migrants
